Please note my Mum's comments below:

To the planning committee:

Ref# 2017/0561/P. 16 Neal's Yard, London, WC2H 9DP.

The night time noise as-is is very loud, with frequently being extreme and intolerable. My sleep cycle has been affected severely, and being on medication for diabetes including insulin require a normal cycle of rest. With noise level ever increasing and extending to the night as well as early morning 'large' vehicle deliveries (producing unbelievable amounts of vibrations, clanking, and metal bashing noise) and bin collections leave a very short window for taking proper rest at night. It is already like a trap, can't rest early evenings or early mornings. After the day-time hustle and bustle, one should be allowed a break at night!

Kind regards,

G. Khatun

TO WHOME IT MAY CONCERN

Re: 16 Neal's Yard, London, WC2H 9DP, Ref# 2017/0561/P

Late opening hours in Neal's Yard should be avoided at all costs to minimise the distress it causes to normal living of the residents in the area.

Without disrespect to any of our lovely businesses in the vicinity of the yard, both the noise escaping from the premises, and produced outside from commuting customers gets amplified due to the 'enclosed' nature of the Yard (and the adjacent narrow streets of Seven dials are no different). The behaviour of sound in an enclosed space is very much different, which 'reverberates' due to continuous reflection or scattering of sound. Also, the 'edge diffraction' of sound from the surrounding buildings' various edges results in the curvature of part of the sound waves around the edges of the barriers. This causes the obstacles to scatter the sound waves making it behave like an extra source of sound, which directly hit the upper floors where residents live. The phenomenon gets worse for the residents in the summer with windows more open. Nowadays, with climate change, getting a good night's sleep is impossible without keeping the windows open, hence directly related to health, and not just nuisance!

We have three generations living on the upper floors of 17 Monmouth Street (WC2H 9DD), with entrance and the entire east elevation facing the yard. The youngest member of the family, my son is 1 and the eldest, my mum is 77. Both my wife and I are working parents.

Regards,

W Uddin

Dear Sir, Madam,

My family resides in Neal's Yard since September 2015. For the last 18 months, we can see the area gets more and more noisy with new restaurants and bars. Despite the restricted operating hours set to 10:30pm, their customers leave much later and stay in front of the shops loudly shouting and singing until 11:00pm and even later.

Having young kids at home, we cannot accept this situation any longer. The restaurants and bars rarely respect the 10:30 limit so we cannot imagine them serving customers any later. Therefore, we strongly object any extension of operating hours for Barbary.

Our position would be the same for any other request of hours extension from any other restaurants in Neal's Yard.

Best regards,
Mr Simvar LACH & Mrs Jeannine LACH
