2017/1093/P	A Cosentino	Cranfield House 97 Southampton Row London WC1B 4HH	12/03/2017 18:30:45	OBJ	I object to the installation of a phone box proposed to sit in front of 97 southampton row - this is directly in front of the main entrance doors of a residential, luxury block of flats. there is an existing old red out of service phone box situated in front of 67 southampton row - the proposed new phone box can be installed near or next to the existing old phone box at/near 67 southampton row which is commercial space not residential.
2017/1093/P	Mr Michael Eden	Flat 13 Cranfield House 97-107 Southampton Row	10/03/2017 17:01:11	INT	This telephone box is to be constructed immediately outside the front door of our block of flats (Cranfield House) which will mean that anyone dropping off or picking up at the flats will not be able to gain access directly to the front door. I'm thinking particularly of ambulances that pick up and drop off elderly residents. There are two telephone boxes immediately opposite and a telephone box on this side of the road within 100 yards. With the lack of use of telephone boxes it doesn't really appear to be a necessary addition to an already cluttered pavementM
