2017/0899/P	John Mesrie	The Gatehouse Mayfair Mews Regents Park Road London NW1 8UU	13/03/2017 17:49:22	OBJ	The roof terrace at the rear would look directly into my bedroom window, which is at the same level as the roof terrace (not lower). There is currently an (unsightly) greenhouse which blocks the view from the current terrace into my bedroom window, but if this is removed, then there will be a direct view (especially when standing at the end of the rear terrace) into my bedroom which is at the same level. This needs to be accommodated somehow at the rear in a way which is acceptable to the residents at the rear.
