2017/1230/P	Greg Foxsmith	6 Hornsey Rise Gardens	13/03/2017 18:15:43	OBJ	Very disappointing to see this application sneak back in. In my opinion the reasons for the original refusal have not been adequately addressed, which is why the applicant has not notified the original objectors or engaged with them. This development if approved would be a smack in the face for local residents and users of the canal. It is way too high, and would overshadow the canal environs plunging the area into darkness. There would be a loss of public space, and a risk to local bio-diversity.
2017/1230/P	Annick Petersen	140 Royal College Street London NW1 0TA	14/03/2017 12:27:44	OBJ	Hello, I feel the building away from Georgina Street is too high and will reduce the view and light to surrounding properties. I am also concerned of the flats overlooking my property. The height should be reduced to match the building next to it by the canal.
2017/1230/P	Rosalind Nanji-Rowe	9 Reachview Place Baynes Street Camden Town	13/03/2017 09:49:24	COMMLET TER	Dear Sir/Madame , I object to the plans as they currently stand to build a six storey development in this historic setting. They will tower over the canal, creating a canyon type effect, throwing the opposite section of the canal, including the nature reserve at Reachview into shadow during the winter months and negatively affect the well-being of residents and visitors. The height and scale of the development is unacceptable from both an environmental and historic point of view. I do urge the council to look at these plans carefully with regard to its residents. Only six flats are considered affordable out of forty. The impact on so many other existing residents is negative if not harmful. I respectfully ask you to reconsider this application and request modifications of height and scale from the developers. The canal is an asset a green space a public space. Please preserve its open and inviting character. Thank you.
2017/1230/P	Manuel Kroiss	14 Reachview Close NW1 0TY	14/03/2017 19:33:15	OBJ	I am concerned about the height of the proposed building. It will overshadow the neighboring buildings and will cast a shadow over the canal. This is unpleasant for the neighboring buildings and problematic for the conservation area on the other side of the canal at Reachview Close. Further, large buildings like this will create a wind tunnel at the canal which will make walking the canal unpleasant.
2017/1230/P	Rosalind Nanji-Rowe	9 Reachview Place Baynes Street Camden Town	13/03/2017 09:49:41	COMMLET TER	Dear Sir/Madame , I object to the plans as they currently stand to build a six storey development in this historic setting.
