Also, this will distract motorists and be a SAFETY HAZARD. The illuminations will disturb neighbours' right to a quiet life. This is also a waste of natural resources and must be contrary to Camden's conservation policies. Camden must find a blanket solution to this pernicious new trend to stop Camden being blanketed in unwanted advertising done for the sole purpose of personal enrichment, which has nothing to do with public amenity. I am a local resident. I would appreciate learning Camden's proposed response to this nuisance. Thank you.
