2017/0200/P	Janet	Flat 11 8 Newton Street London WC2B 5EG	20/03/2017 17:14:23	OBJ	I consider this an overuse of thermal site, on a residential street, right next to a tower block of residents who are already deeply affected by 24 hour noise and nuisance from the hotel Also this building by architect R Seifert should be listed and left intact, along with 8 Newton Street and Centrepoint, an important building style of the 1970s
