

NO

The riser rebate and the stainless steel insert are both cut 30mm from the nose of the tread, possibly leading to a crack across the width of the tread.

STAIR NOSING DETAIL, THE SEVEN STARS

SCALE: FULL SIZE

YES

The stainless steel insert is cut 30mm from the nose of the tread, but the rebate is made for the back of the riser instead of the front, thus avoiding a double reduction of the tread thickness in the same place.
