Rob Tulloch

VB Camden Planning Services

2nd Floor 5 Paneras Square c/o Town Hall.

Dear Mr. Tulloch,

Application 2017/0911/P

I wish to oppose the appalling
unfitting, grossly inappropriate building
as presented in the Application.

It is so obviously alien to the area
in general + to the crest of streets
which it threatens to dominate.

The area factor should be decisive in
making the decision to reject the Application.

The area would be impacted on in many
ways. (1) Traffic overload - School transport
+ pavement pressure of a school which has
around 400 children - so awful traffic
pressure at all times - worsened AM & PM

(2) Ravenshaw St is a water courseway
historically added traffic is totally out of order.

(3) A completely destructive visual presentation
in a street with defined low roof lines

(4) Its size will have a consequence of massive
loss of privacy by overlooked neighbours

(5) Out of kilter with the housing provenance
for this street - family homes with street entry
Overall

The plans are just plain wrong for the reasons
I've stated. I ask for 4 minutes to present the
case in person.
