2017/0359/P	Ahmed	ritech Solution 131 Queens crescent	02/04/2017 15:27:29	INT	We are a local business operating in the Queens Crescent region and we fully support this initiative. My children make frequent trips and use it to practise their faith. It has become a symbol of their community. I also take part in activities held by the mosque and i have benefited from it tremendously. I approve of this initiative and would love it to remain a part of this community because it has brought so much benefit to both the young and the elderly.
