2017/1257/A	Charles Medawar	2 St George's Mews London NW1 8XE	25/03/2017 09:56:37	OBJNOT	<p>What a very unwelcome proposal – and what a ridiculous conflict of interest that Camden should be applying for permission to erect this eyesore, right next to Haverstock School, when the Council itself will be deciding the outcome.</p> <p>Camden has just hiked the Community Charge by 5%, citing the need to protect key services – now it proposes this degrading of the environment on the same grounds. I deplore the cuts imposed by Central Government, but see this as a deeply unimaginative and tawdry response.</p> <p>If Camden is looking to protect essential services, I suggest it first audits its own activities to see what savings can be made. To give one example: Camden Planning Department employs a whole bureaucracy, to decide even whether it is permissible to cut the crown of local trees.</p> <p>I entirely get the point of tree conservation etc – but can't help feeling that something has gone badly wrong when the Council on the one hand invests in the manicure of trees, while at the same time erecting unsightly electronic billboards in landmark public places, and right next to a major school. Never mind the light pollution; what about the pollution of young minds?</p> <p>I wholeheartedly oppose this application</p>
2017/1257/A	jennifer ross	NW3 5PP	28/03/2017 09:48:35	COMMEMP ER	absolutely object to such a screen. Ugly and totally unnecessary.
2017/1257/A	WHR CLIFFORD	31 Steele's Road London NW34RE	27/03/2017 11:52:33	OBJ	<p>Given that there is already ample advertising everywhere we look and that there should not be further deviation from safe driving on the streets, this does amount to another cynical approach to raising funds by Camden Council.</p> <p>The placement is hugely complicated given that it is near a large school and a narrowing road and therefore should be sited elsewhere with more regard to public safety.</p> <p>I therefore object to this application.</p>
2017/1257/A	Sabine	13 Belsize Park fardens	27/03/2017 23:26:35	OBJ	<p>As a neighbour and walking passed this location I object to this plan.</p> <p>It will be a visual nuisance that will only benefit the advertiser and be detrimental to the people living in the area.</p>
