Hi Oluwaseyi

I'm assessing the above application. I am a little concerned with the awnings to be placed on Parkway, as this is a busy footway and the width at this section of footway is quite narrow.

Could you ask the applicant for the purpose of placing the awnings along this section of the building is? My only concern is that if the applicant is also proposing to submit a tables and chairs application for this section, it may be refused due to inadequate footway width, and the awning then becomes redundant.

Thanks
