2017/0359/P	Yahya Maslah	Flat 94 Wendling Haverstock Road NW5 4QX NW5 4QX	05/04/2017 00:19:34	SUPPRT	I support this planning permission. I am a regular user of the services provided and I feel that it is used as a way of bringing the community together. In today's very decided society it is rare you find a building or place that regularly bring a vast number of individual from all areas of society. I use it myself as a place of worship, sometimes a place to do work and other times to further my knowledge with the vast amount of activities they provide with their limited resources. I ureter you to accept this planning permission not only for the betterment of the community in camden bout for the society as a whole.
2017/0359/P	Eng Abdiwahab Musse	94 Wendling Haverstock Road Queens Crescent NW5 4QX	04/04/2017 23:27:25	SUPPRT	<p>I write in connection with the above planning application. I wish to offer my support to the proposal for the reasons stated below:-</p> <ol style="list-style-type: none"> 1) The centre is multifunctional. 2) The centre offers Somali language classes for both boys and girls. 3) The centre offers Islamic studies and Qur'an learning for both boys and girls 4) The centre has dedicated female areas where they study and offer their prayers. 5) The centre had recently developed a program where that it registered all those who are fluent at reading, writing and speaking in English to act as translators for local state schools to help out at parent's evenings and for translating school reports. 6) The centre had also created dedicated English language classes for women of all ages. They can meet and learn together. 7) The centre offers supplementary school subjects i.e English, Maths and Science. 8) The centre offers Arabic language classes for male and females. 9) Offer counselling to youngsters who are slipping up or being a nuisance at school. 10) Offers Islamic and traditional marriage counselling <p>We, Somali community do not have another multifunctional centre in Camden as 23-24 Cheriton and Somali community is second largest minority ethnic community in the borough after the Bangladeshi community. We have reasonable expectation for the Council to assist us to identify and establish places of worship. We've found place that close enough to potential worships and we were expecting Camden Council to support us, unfortunately that didn't happen and all what we getting from the Camden Council is from one obstacle to another one, from one restriction to another. The Council have not even tried to identify another alternative nearby. I will be greatfull if you approve the application.</p>
