2017/1840/T	john park	45 croftdown road	05/04/2017 21:22:07	OBJ	We would like a second opinion on this situation. We would also like to attend this meeting. The tree could be maintained properly and cut back when needed, The tree has been there for 100's of years and this blocks alot of the sound and view of the school for us and our neighbours. There are many ways to get around this, without removing the tree and i am happy to arrange a second opinion.
