2016/6356/P	Colin Goodbourn	64 Derby Lodge Wicklow Street London WC1X 9LG	09/04/2017 12:36:57	OBJ	<p>I object to this application for the following reasons.</p> <p>The proposed building is too large and imposing and will create an overwhelming sense of enclosure in the courtyard. The height and footprint of the building will have a detrimental impact on light to properties facing the courtyard. All of the windows in my flat overlook the courtyard as do many other properties , especially at lower levels.. The design of the building is not sympathetic to the established grade11 listed buildings. I am concerned about noise from aircon and noise from office workers using the outdoor spaces.. I feel the developer has paid minimal consideration to the numerous objections and concerns of the community in the revised plans,</p>
