2017/1407/P	Mark Murray	4 Bonny Street London NW1 9PG	08/04/2017 08:16:46	INT	<p>Dear Sir,</p> <p>I would like to register my concern over this variation. As a neighbour who will be immediately affected by the development, I would want the noise and disruption caused by the building work nearby to be kept to a minimum.</p> <p>I am concerned that the site will be left vacant and could fall into mis-use. I am also concerned that the duration of the building work will be extended. The recent development at Twyman House involved noise, heavy vehicles, dust and disruption to the residential area. It is unfair to the residents for this development at 140-146 Camden Street to take more time than necessary.</p> <p>I would ask that the condition be kept in place or if there has to be a delay between demolition and construction that this be kept to 1 month.</p> <p>Thanks and regards,</p>
