Re: 103 Chetwynd Road - Proposed Extension

Further to our email of 7th April we omitted to state that we are the resident/owners of 105 Chetwynd Road which is immediately to the eastern side of No. 103.

We also ought to clarify what modifications we are looking for which are:

1. A substantial reduction in height of the proposed extension in order to address our previously stated concerns.
2. The strengthening and support of the boundary wall because we do not want this demolished even inadvertently due to construction being carried out.
3. The redesign of the corrugated roof over the sideway in order to prevent any rainwater being discharged onto our property.

Could you please kindly acknowledge receipt of both these emails.

Ruth and Graham Scherzer
