Subject: Application Comment. 2017/0183/P Tulloch- 6 Streatley Place

Dear Rob,

I have just learned of the application to develop 6 Streatley Place again. I knew it had been sold and the developers had consulted local residents but I never received anything in the mail from Camden notifying me of the proposed development. I understand that the time for comments has expired. However, I am reading through the construction management plan and I notice that they are considering using the layby in front of my driveway on Back Lane as a site office and skip placement.

I cannot believe that Camden would allow that. That section of Back Lane that widens out in front of my driveway is there so that vehicles can enter and exit my driveway. Back Lane is a very narrow road and in order to make a turning radius possible it is necessary to use the layby area. It is already a nuisance as often there are delivery vehicles parked there and one has to wait until they move to enter or exit my driveway.

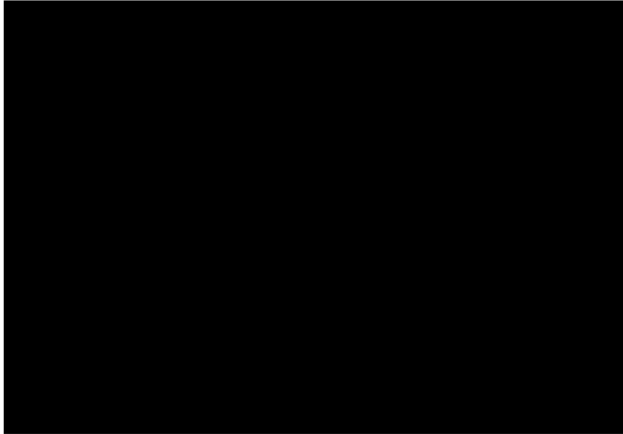

Putting a site office and skip there for a year would deny me use of my driveway and cause me damages.

The construction management plan calls this layby parking bays. They are not. They are often used as such by delivery vehicles but they are ticketed when caught.

I implore you to not allow the developer to use this widened section of Back Lane as a site office and skip site.

Sincerely,

Max Trautman

Subject: 6 Streatley Place

Dear Rob Tulloch

We live at 3 Back Lane and we are pensioners.

We object to put a skip and a site office in front of our house. It would cause constant noise, disturbance for us. We would not have one quiet room in our house, the coming-going around our house would disrupt our sleep, our resting time. It would be absolutely intolerable considering our age.

There is already a rat-race on Back Lane in the afternoon and not being able to use the bay to unload in front of our property would be a nuisance. This little street used to be a lovely residential quiet street. It changed a lot and the proposed use of the place in front of us for such a long time is just not acceptable.

Yours sincerely Mr and Mrs M.Sarkozi
