**Subject:** Objection to Building Plans - 48 Belsize Square NW3 4HN

Dear Raymond

I am writing to strongly object to the building plans at 48 Belsize Square, NW3 4HN - case number 2017/1307/P. I lease the upper ground floor flat that looks out over the gardens, directly on top of the garden flat. The proposed extension would severely diminish the amenity of my flat and view. The beauty of Belsize Square and the surrounding streets is the openness and greenery of the gardens behind the buildings. Looking at a roof top instead of a garden would take away from this greenery and aesthetic - compromising this property and indeed the neighborhood as a whole.

I hope that you will stop these building plans. The property owners should move to a new home - allowing them more room and allowing our neighborhood to maintain its greenery and aesthetic beauty.

Thank you for your understanding and protection of natural spaces in Camden.

With very best regards

Martha Jennings

48 Belsize Square  
Upper Ground Flat  
London, NW3 4HN
