Dear Sir

re R-Anne's Close No 6

I am writing to inform you of my intention to fell the dead whitebeam outside no 8 R-Anne's Close No 6 and also to reduce the Chinese Willow in the garden of no 8 by 1/3rd to make it a canopy safe. The tree is completely hollow at ground level and to my surprise has survived in this condition for years. There

reduced it before.

Although I have the necessary forms which I have repeatedly used in the past for applications they seem to be a complete waste of time as you have denied me permission over and over again — many on West Hill Park, East Meath Road and Birchwood Drive.

Apart from wasting my time and money, my clients have also been very upset.

Yours faithfully
