Hello,

I have registered an objection online to this application but I have not received confirmation and so I am following up with this email.

I consider this application to be inconsiderate and ill-conceived on the grounds of public safety and I wish to object. The proposal is for a huge advertising hoarding at a location that is very close to a pedestrian crossing that often has road users jumping the red lights. My impression is that it's because people have not seen the light. I have myself been nearly knocked over by both cycles and cars on this crossing. To add this advertising hoarding will increase the level of distraction and is thus increasing the risk to public safety.

If this goes to committee, I would like to be able to speak at the committee.

Regards
