# 97A ROWLEY WAY

## KITCHEN PROPOSALS

We would like to remove the current fixtures and fitting, none of which are original to the building and replace with a modern integrated kitchen that references Neave Brown's original kitchen design. No interior or structural walls will be altered.

Original kitchen tiles

Bespoke handles inspired by original handles

Bespoke pine plywood door fronts with a handle design inspired by the original kitchen handles

Original kitchen doors

A modern take on the original tiled kitchen work surfaces. Matte white square tiles with a terracotta colored grout.

## BATHROOM PROPOSALS

The current bathroom is currently dated, damp and moldy. We would like to remove all fixtures and fittings (sink, toilet, show tray and tiles) and replace with modern fittings. None of the current tiles or fixtures are original to the building and we suspect the bathroom was last upgraded in the 1990s or early 2000s. This is an aesthetic improvement and no structural walls will be altered.

Simple white architectural tiles and modern matte black fixtures

Light grey terrazzo floor tiles

Bespoke free-standing vanity unit constructed of pine plywood to tie in with kitchen.

### OTHER WORKS

In addition to the works above, where possible we will restore the original features. For example removing the dark stain on the stairs to reveal the original coloration.

Current stair stain

Original stair colour
