- 5 Where an advertisement is required under these Regulations to be removed, the site shall be left in a condition that does not endanger the public or impair visual amenity.

Reason: - As required by regulation 2(1) and Schedule 2 of the Town & Country Planning (Control of Advertisements) (England) Regulations 2007.

Informatives:

- 1 Reasons for granting permission.

The proposed signs are considered acceptable in terms of size, location and method of illumination. They would replace existing internally illuminated fascia signs in the same position but differ in design and method of illumination, as such, the advertisements would not be considered unduly dominant in the street scene. There is a variety of existing signage including illumination located on the commercial units on this part of Camden High Street so the impact on the visual amenity of the area would not be considered harmful.

Whilst the method of illumination would cause some light spill, the position of the illumination is at an appropriate distance from the nearest neighbouring occupiers at first floor level and would not be a significant increase in the level of illumination to the existing to be considered significantly harmful to neighbouring occupiers.

The signs are in a typical location on the fascia of the shop front which is not considered hazardous to vehicular or pedestrian traffic and therefore raise no

public safety concerns.

The site's planning history has been taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24 and DP26 of the London Borough of Camden Local Development Framework Development Policies and policies A1, D1 and D4 of the Camden Local Plan Submission Draft 2016. The proposed development also accords with the policies of the London Plan 2016 and The National Planning Policy Framework 2012.

- 2 The emerging London Borough of Camden Local Plan is reaching the final stages of its public examination. Consultation on proposed modifications to the Submission Draft Local Plan began on 30 January and ended on 13 March 2017. The modifications have been proposed in response to Inspector's comments during the examination and seek to ensure that the Inspector can find the plan 'sound' subject to the modifications being made to the Plan. The Local Plan at this stage is a material consideration in decision making, but pending publication of the Inspector's report into the examination only has limited weight.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
