Subject: 57-59 Monmouth Street / 4 Ching Court

Dear Ms Parry

ref. 2017/1261/L

It has just been brought to my husband and my attention in the last days of the application to convert the offices to residential apartments for the above addresses.

I understand our response here may have missed a deadline, but we have just become aware, as we are currently away from our home for a few weeks for renovation. We are really unhappy about this possibility and wanted to write to you to consider our important objection despite the deadline being lapsed.

We live at 27 Mercer street, and our house looks onto Ching Court and we currently enjoy privacy of no other homes looking into ours of evenings and weekends. We also enjoy the little noise in the evenings. We have a young family, and was a key reason for us choosing our house some years ago.

We very much want that you do not grant permission

Please confirm you have received this objection. Please also let us know the outcome

Kind regards
Uma Baska and Niranjnathan
