Hi James,

There are 3 small prunus, the site is as my first email and all low value trees.

Best regards,

Not quite - "group of trees...few cherries" Just need confirmation of the numbers/species to be removed.

Cheers,

Ok no worries, is the info on the original email insufficient?

Sorry Chris, Thought I'd responded.

Send me through a full spec, along with photos if you have them and a copy of the letter from Camden, and I'll get it logged as a DD.

I'll get it back to you as soon as I can after that – should be a day or two.

Cheers,

James Remmington

Dear James,

Did you manage to consider this?

Best regards,

Dear James,

A client at 37 Tanza Road has been sent an enforcement letter by Camden regarding his unsafe wall.

Beside the wall and possibly the reason for the problem are a group of small trees including a self seeded ash approx 12cm in diameter, a multi stemmed bay the largest stem being approx 12cm and a few small cherries less than 10cm in diameter

Can we remove these to allow the wall to be reinstated or do we need to submit a notice first to the planning dept.

Please see attached photos.

Best regards,
