2017/1274/P	Mills	13 Lyncroft Gardens	03/05/2017 09:02:25	OBJ	If the dwelling is in a Conservations Area or affects the setting of a Conservation Area and the Conservation Area Design Guidance states that UPVC windows are inappropriate, then I object to the application. Most houses on the East side of Lyncroft Gardens have wooden windows and all the apartments on the East side do. Compared with wood, UPVC windows have larger frames and provide a poor colour match.
