2017/1356/P	Anne Taute	Flat 1 54 Russell Square London WC1B 4HR	20/04/2017 17:54:34	COMMNT	This restaurant is already fouling the air because their extractors release their fumes into the back garden which means that the occupants in the neighbouring properties have to endure the smell of stale cooking fat all day. As a local resident I have to keep my windows shut even in hot weather. Please do not allow this restaurant's extension because they have not kept any previous promises to deal properly with their fumes.
