The Council has considered your application and decided to grant permission subject to the following conditions:

Conditions and Reasons:

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policy DP24 [and DP25 if in CA] of the London Borough of Camden Local Development Framework Development Policies.

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans: LOVRD-L001; LOVRD-L101; LOVRD-E001; LOVRD-E002; LOVRD-E101; LOVRD-E102; LOVRD-P001; LOVRD-P002; LOVRD-P101; LOVRD-P102; LOVRD-S001; LOVRD-S101; Design and Access Statement dated February 2017

Reason:

For the avoidance of doubt and in the interest of proper planning.

Informative(s):

- 1 Reasons for granting permission:

The proposed single storey rear and side infill extension is subordinate to the host building in terms of its form and proportions. It would retain a reasonable proportion of garden and is considered to be sympathetic to its setting. The extension will be constructed of stock brickwork and roof tiling to match the existing which is appropriate in relation to the character and setting of the host and neighbouring buildings. The proposed extensions also include the formation of a small courtyard between the side infill extension and the main part of the application building. The location of the extension at the rear of the building would mean it has a limited impact upon the streetscene. The proposed rooflights are further considered to be acceptable in relation to the host building and the surrounding setting.

Due to the proposed extension's size and location, there would be negligible harm to the amenity of any adjoining residential occupiers.

No objections were received prior to making this decision. The application site's planning history and relevant appeal decisions have been taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, policies DP24 and DP26 of the London Borough of Camden Local Development Framework Development Policies and policies A1 and D1 of the Camden Local Plan Submission Draft 2016. The proposed development also accords with the London Plan 2016 and the National Planning Policy Framework.
