2017/1676/P	John Robins	27 Downshire Hill London NW£ 1NT	03/05/2017 09:16:57	OBJ	<p>It is stated in the D & A Statement that 'the level of the roof is proposed to be raised slightly', however, no section through the roof is included and there is no dimension shown for the additional height of the roof.</p> <p>Looking at the existing and proposed elevations, the roof ridge has been raised to the underside of the projecting brick course on the chimney stack, however there appears to be a drawing discrepancy as the chimneys are drawn at different heights on the front and back elevations.</p> <p>I am filing an objection as the form and the height of the proposed roof are not shown..</p>
