2017/1939/T	Thomas Abbott	BEDFORD OFFICE 29A MONTAGUE STREET WC1B 5BL	02/05/2017 10:03:34	COMMNT	Further detail from Head Gardener: The intention as stated in the application description to 'Fell & leave stump' refers to removing the majority of the height of the specimen to roughly 4 feet from ground level and allowing the Holly to regrow as a large shrub over the subsequent years. This intention was arrived at after observations of the tree during winter storms and the severe lean over the public footpath. There are other specimens of the same variety in the immediate vicinity so the aesthetic impact of the reduction will be mitigated.
