2017/2305/T	Blair	East Heath Road	30/04/2017 14:43:32	OBJEMPER	<p>What is the Applicant planting in place of the Loquat? Should Camden grant permission then the Council must insist that the Applicant plant a species that will offset pollution in this conservation area:</p> <p>2. Removal of Air Pollutants: Trees can remove gaseous air pollution either through uptake via leaf stomata or the plant surface. Once inside the leaf, gases diffuse into intercellular spaces and may be absorbed by water films to form acids or react with inner-leaf surfaces. Recent research suggests that the planting of trees along the sides of roads could reduce NO2 concentrations in addition to providing amenity value [1]. Trees can also remove pollution by intercepting airborne particles.</p> <p>source: https://laqm.defra.gov.uk/laqm-faqs/faq105.html</p>
