2017/2323/P	Ray	82 St Augustines Rd	28/04/2017 09:29:04	OBJ	We strongly object for this planning application to be approved. The proposed bike shed is out of character in scale, location and usage for the small front yard it sits within and is markedly different to what was approved. Furthermore, the developer has yet again deliberately ignored the planning approval he was given for his front yard and installed something completely different. This behaviour has been persistent with the rest of his development at 84 St Augustine's Rd and his method of seeking permission once the offending items have been installed should not be condoned by Camden planning.
