Planning Appl. **2017/0558/P**, 89 Hillway

Dear Mr Hope,

I've noted that a revised version of the document PROPOSED/430-301-P/C was posted on 18.4.17 and notice again that it contains a 'timber privacy screen with climbing planting'; this may be a variation of view for the applicant's side of that screen but changes nothing to regarding the restriction of views from our side – as demonstrated in my original objections letter on 5.3.17.

Please, note therefore that I still strongly object to such a restriction of the enjoyment of my current views.

With best regards

/Peter Twachtmann
