Hi Paramesh

Yess, today is fine. Say 3pm?

Thanks

Michael

Good morning Michael,

We can discuss today after 11:00 am, if it is convenient for you. Please let me know the time if you are coming down here, so that I can inform at the reception desk.

Apologies for the short notice.

Many thanks

Kind regards

Paramesh

Dear Mr. Mullen,

I have been asked to review your AIP submission for the proposed development and would like to have a meeting with you in order to understand more about the project. In this respect would you please let me know your availability next week?

Many thanks

Kind regards

Thanks Warren,

In that case there are no objections from me although if any issues arise once work starts please feel free to contact me and I can come and take a look.

Regards,

John

Good Morning John,

We will not be going any closer.

We will sheet pile to maintain the path but all other piling will be carried out within the site. We will not be going any closer to the trees.

Many Thanks,

Warren

Hi Warren,

Thanks for this. When you say you are going to need to sheet pile on the boundary, does this mean you will be piling on the existing building line, or are you planning to go any closer to the trees than that?

Regards,

John

Good Afternoon John,

We are a new development in Camden and we are working on building 14 new flats for LBC.

Our site is located on a TFL Red Route and so we would like you to take a look at the proposed, paying attention to the trees.

We have to demolish the existing building, pile and then build the new block. During the demolition process we need to sheet pile on the site boundary to maintain the path. There are 2 large trees located next to the existing

building and we would like you to take a look and confirm you are happy with our proposal.  
We have been in contact with TFL about the trees (Memon Shiraz

Any problems, queries or questions please don't hesitate to contact me.

Many Thanks,

Warren Bragg
