Dear Jonathan,

St. Giles Circus 138-148 Charing Cross Road London WC2

Thank you for your communication 21st April 2017.

I can confirm that the planning applicant is in communication with London Underground engineers with regard to the development above.

The documents attached to this planning application satisfy only part of the condition under London Underground Condition 10 which states "*mitigate the effects of noise and vibration arising from the adjoining operations within the structures*".

Therefore, the developer should continue to work with LU engineers to satisfy the remainder of the condition.

If I can be of further assistance, please contact me.

Yours sincerely

Shahina Inayathusein
