

Two-Tier Bike Rack – Specification Sheet

The Two-Tier Bike Rack is the ultimate for achieving excellent space saving bike storage whilst ensuring a usable system for your users. Offering superb usability and exceptional value it has become the bike rack of choice for any area requiring high density bike storage such as stations, universities, shopping centres, car park and offices. The Two Tier Bike Rack accommodates all types of bicycles which are securely supported in the tyre channel. The rack also offers high security as both the wheels and the frame can be locked to the rack. BREEAM Compliant.

Lead Times – Approx. 2-6 weeks depending on quantity ordered.
