

Dear Camden Council,

RE: Dead, dying or diseased tree

Further to my email (dated 8 March), I am writing to request **permission (approval) to remove a dead, dying or diseased tree in our rear garden.**

Our property is within **South Hampstead Conservation Area. Garden Flat, 162 Belsize Road, NW6 4BJ**

The tree in question (approx. 7 metres tall - an evergreen holly) was a healthy specimen until about 2-3 years ago. At that time, it **lost all of the leaves and has not regrown foliage.**

Please find attached a photograph to better illustrate. I understand that you may wish to inspect the tree.

Our intention is to remove the dead, dying or diseased specimen and plant a small tree near to the original site.

I look forward to hearing from you.

With best regards, Paul Valente
