

Newsletter

October 2016

Welcome to our 1st Edition newsletter for the works to Netley Primary School on behalf of Camden Council.

Introduction

We would like to introduce ourselves as Kind Diamond Build Consortium Ltd. and we have been appointed by Camden Council and Netley School to carry out the works to build a new facility for Nursery and 2 year olds and to make the building on the roof space suitable for the Science, Technology, Engineering and Mathematics department to teach in.

We will also be building a toilet block for the Multi Use Games Area.

Our on site Manager is Geoff Williams and he will be available for any questions you may have about the construction works.

Everton Mews

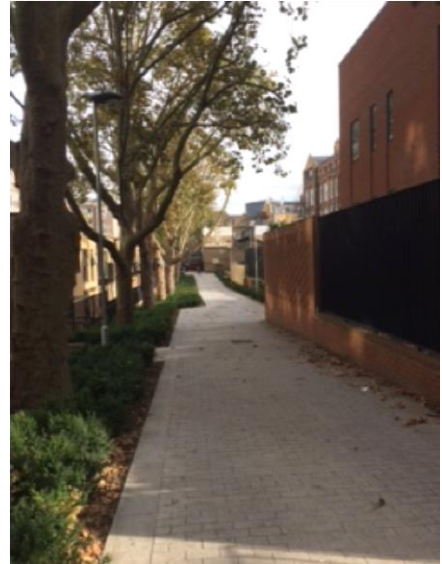

We would like to thank everyone at Everton Mews for their patience whilst the site cabins were being delivered; we hope this did not disrupt your day too much.

Scaffolding

We would also like to thank the residents in Netley Street for their patience whilst the scaffold is being put in place. Again we hope this is not disrupting you on a day to day basis

Minor Demolition works

As part of this works we will need to knock down a small toilet block in the playground adjacent , this may create a bit of noise for a short while but we will try our best to keep this to an absolute minimum, we will also be breaking up the concrete slab from the old bicycle shelter to make way for the new 2Year Old facility at Netley School, again this will make a bit of noise but will try our best to keep this to an absolute minimum

If you wish to discuss any aspect of the project work please contact:
Geoff Williams – Site Manager 07980 730316 or Michael Smyth 07403 871 632

Incident Book

An incident Book is located with our Site Manager Geoff within the site office, this for you to record any incident that you fill we should know about.

Furtue updates

We will send round another newsletter later in the works to update you further of our progress.

If you wish to discuss any aspect of the project work please contact:
Geoff Williams – Site Manager 07980 730316 or Michael Smyth 07403 871 632
