**Planning Portal Ref: PP-06026251 (Advertisement)**  
**Planning Portal Ref: PP-06035302 (Listed Building Consent)**

Dear Sirs,

**61-63 Monmouth Street, London, WC2**  
**Advertisement and Listed Building application for the display of two non-illuminated hanging signs at first floor level on the front elevation of 61-63 Monmouth Street.**

On behalf of our client Shaftesbury Covent Garden Ltd, we write in support of an advertisement and listed building application to display two non-illuminated hanging signs on the front elevation of 61-63 Monmouth Street at first floor level. The requisite fee of £110 has been paid to the Council online.

#### **Site Location and Existing Use**

The property is located along the eastern side of Monmouth Street. The property comprises of four storeys, including retail (Class A1) at ground floor level and office on the first, second and third floors. The property is Grade II Listed and is also located within the Seven Dials Conservation Area. The application relates solely to the first floor front elevation of the building.

#### **Proposal**

The application seeks advertisement and listed building consent for the installation of two hanging signs at the front elevation of the property. The bracket will be constructed of wrought iron and has an attractive ornate design which will complement and enhance the surrounding characteristics of the Listed Building and Conservation Area. The signage will not be illuminated.

Both proposed signs will project approximately 1500mm from the property's façade and will be located at first floor height. The sign pictured in Section A of the accompanying drawings (drawing no: P011) will be approximately 3.6m from the base of the sign to ground level. The sign pictured in Section B of the accompanying drawings (drawing no: P011) will be approximately 3.5m from the base of the sign to ground level. Neither of the signs width project beyond the width of the footpath

below. Please refer to the submitted application drawings for further details.

Both hanging signs will be carefully affixed to the Listed Building using four RAWL bolts which will not impact upon the buildings special historic interest. Both signs will be constructed from 25mm block board with 2mm steel lipping, giving a finished overall size of 1000x600mm. The final signage boards will be decorated by the incoming tenants.

The hanging signs are located slightly above the shop fascia at first floor level above the respective retail entrances on the left and right hand side of the property. This is considered to be the only position where the bracket can securely be fixed to the building.

It is confirmed that proposed signage and location at first floor level mirrors that of signage previously approved and installed by Shaftesbury across the Estate, including Monmouth Street, Earlham Street and Neal Street.

#### **Policy Considerations**

The Council recognises that advertisements and signs are important to the vitality and function of retail areas. The principle of hanging signage is well established in the area and the addition of two hanging signs on these properties is believed to be entirely acceptable giving consideration to both signage detail and design.

The Seven Dials Conservation Area Statement stipulated that signage should be:

*“...appropriate for the Conservation Area, respecting the proportions of the shop frontages, and maintaining the division between units and reflect the plot widths of buildings... Internally illuminated box signs are unacceptable and generally signage should be non-illuminated or externally”.*

It is considered that the proposed signs will positively integrate with the form, fabric, design and scale of the building and the materials proposed are sympathetic to the building's Grade II Listing and those adjacent properties. The signage is reflective of those historic and traditional advertisements consented within the local area which preserves and enhances the character and appearance of the surrounding conservation area. The signage has been situated to ensure pedestrian views and flows remain unaltered.

It is considered that the proposed signs are in accordance and supportive of local Development Policies DP10 (Helping and Promoting Small Independent Shops); DP24 (Securing High Quality Design); DP25 (Conserving Camden's Heritage) and DP30 (Shopfronts). Further, the proposed sign has taken special consideration of the Council's advertisement guidance outlined within CPG1 – Design.

#### **Conclusion**

The proposed non-illuminated hanging signage is considered to complement and enhance the appearance of the Grade II Listed building and would make a positive contribution to the character and appearance of the conservation area. The advertisements include a traditional wrought iron bracket which will be discreetly fixed the existing elevation at first floor level. It is considered that the proposals are consistent with and supported by the Council's planning policies and planning guidance.
