Hi

I don't think this comment was registered on M3 whenever it was received. Can this be registered.

Thanks.

Elaine

Hi Eliane good to talk to you. Here are some snaps i took of what is was like when there was the scaffolding outside. it doesn't do it justice - the smell and the human excrement every day was horrific.

I spoke with a few other businesses and they said that the atmosphere was awful, and people leavig late felt very intimidated - one saying that there were drug dealers in the area!

The noise from the drilling and excavation, plus the lorries and scaffolding attracting rough sleepers and others, and the building works will are this nice street a nightmare to lie and work in.

I hope you can take this into consideration?

Many thanks Paul
