2017/1054/P	Jane MacCuish	7 kelly street	06/05/2017 11:16:47	COMMNT	<p>We wish to object to the proposal on the following basis.</p> <p>We are already surrounded by a number of fast food outlets - leading to increased parking (often at the entrance to Kelly Street) whilst people consume their takeaway. On numerous and frequent occasions rubbish is disposed of by tossing onto the road. This is a well documented problem one that both Mark Hunt in the Environment Department and Meric our local councillor is aware of.</p> <p>Due to late night openings of these businesses we have increased noise last at night as people stand (often after more than a few drinks) consuming food and leaving their rubbish roadside.</p> <p>We are concerned that ventilation required for this business will result in noise onto the rear of Kelly Street properties and the surrounding flats on Kentish Town Road.</p> <p>The management of the current establishment has been erratic - with boxes and goods overflowing onto the pavement causing problems for pedestrians passing at what is already a pinch point by the bus stop.</p> <p>The overall quality of the appearance of these properties is poor adding no merit to the street frontage, often with quick fix and temporary construction solutions to doorways storage and signage of poor quality and often very poor workmanship.</p> <p>Overall we have little confidence that the development will bring anything other than increased noise at anti social hours, street litter, , poor ventilation (increasing noise and smells) and make a poor contribution to the streetscape of Kentish Town.</p>
