2017/2512/T	Claire Mosier	155 Gloucester Avenue NW1 8LA NW1 8LA	12/05/2017 09:57:31	INT	As neighbours, we are opposed to this application. We love this long-living, healthy tree and it's an important part of what makes Primrose Hill unique in London. This tree not only helps keep the air fresh for our families but is a home to much wildlife in the centre of London. I would like to be advised of the committee date please. Thank you
2017/2512/T	edward boujo	153 gloucester av	12/05/2017 13:39:00	COMMNT	<p>As the homeowner of 153 Gloucester Avenue, i am writing to let you know know that I object to the cutting of the tree on so many levels.</p> <p>It is an incredibly beautiful tree and part of the history of Primrose Hill, being the tallest tree in the village. I feel so very strongly that to get rid of this formidable tree would change the landscape and atmosphere of the area.</p> <p>Having spoken to a close friend who is also a tree surgeon, practically it is a difficult if not impossible task.</p> <p>I understand that the tree may cause some problems but we should be able to work around that. We have no right to destroy it...</p>
