2017/1762/P	Patricia Zekaria	9 Alvanley Gardens NW6 1JD	14/05/2017 14:57:23	COMMEM AIL	<p>I have the following comments objections to the Planning Application 2017/1762/P:</p> <ol style="list-style-type: none"> <li>1. There are no rights for development for sports clubs in this category and thus the application should be rejected.</li> <li>2. The erection of a storage shed and water tank is to facilitate the the upkeep of the club"s facilities, i.e. the grass tennis courts and cricket field. They are not "crucial: to the maintenance of these facilities as they have been perfectly maintained for well over eighty years. Surely the proposed installation is merely to ease the "burden" on the Club"s maintenance of these areas by conventional means.</li> <li>2. . The Club has provided scant details of the proposed water tank installation. In terms of the noise levels, proposed hours of operation, etc. except to state that it will be a "small pump set". Any noise from this water tank will affect the is residential area and the peace and enjoyment of its residents. I strongly object to any extraneous noise being permitted when the pump is not necessary in the first place. If Camden is prepared to consider this application, then details should be provided and made public of exactly what noise levels are involved.</li> <li>3. It is proposed to house the pump in a shed immediately adjacent to Alvanley Gardens. Why has it not been proposed to house and install the pump next to and NEARER to the tennis courts themselves at the other end of the field, away from any residential area. The Club has a whole area to choose from, thus avoiding any nuisance to Alvanley Gardens residents in terms of noise and appearance (should the natural screening- - which the Club will be relying upon - prove inadequate.</li> <li>4. This application is termed "very minor in nature" and the proposals as "crucial to the overall operation and maintenance of the entire site" They are not.</li> </ol> <p>Before any development of this green space is considered, a considerable amount of further information should be submitted to Camden.</p> <p>Please acknowledge this statement and keep me informed of any further correspondence on this matter.</p>

2017/1762/P	Andrea Sarner	13 Alvanley Gardens NW6 1JD	14/05/2017 22:40:55	OBJ	We are deeply concerned about this unnecessary installation so close to the Alvanley Gardens houses. There is no doubt that the noise would affect the whole street, and would also reflect from the trees behind Alvanley Gdns so affect the back gardens as well. As there are no permitted development rights for sports clubs, we trust you will not allow this large tank in such a position. Should you decide the club cannot now do without this tank, please insist that it is moved away from the residences of Alvanley Gardens. Thank you.
