2017/1948/P	Tania Voaden	19 Fortess Grove NW5 2HD	12/05/2017 14:38:28	COMMNT	The proposed roof extension, by reason of its location, bulk, form and height in a terrace unaltered by roof extensions, would harm the appearance of the building and the character of the roofscape in this mews and the character and appearance of the Kentish Town Conservation Area. The small house has already received planning for a side extension and a basement - the addition of a roof extension seem unnecessary for the purposes of providing a family home. There is a symmetry between the terrace of no. 21 and 22 that would be entirely altered by this extension. As neighbours, we object to the planning proposal.
