Application Ref: **2017/0582/A**Please ask for: **Nora-Andreea****Constantinescu**Telephone: 020 7974 **5758**

15 May 2017

Dear Sir/Madam

**DECISION**

Town and Country Planning Act 1990

**Advertisement Consent Granted**

Address:

**o/s 5 - 11 Procter Street  
London  
WC1V 6DW**

Proposal: Display of 2 x internally illuminated digital advertisement panels to freestanding BT panel.

Drawing Nos: Site location Plan; PY2808 - 001; PY2808 - 002; PY2808 - 003; D0002;  
Street Furniture Comparison

Reports: Cover Letter prepared by Matt Swindles dated 24/01/2017; Proposed Schedule of Operating Conditions for LinkUK from BT Advertisement Screens prepared by BT Link UK; Guidance for Digital Roadside Advertising and Proposed Best Practice prepared by Waterman Group dated 04/03/2013; Planning, Design and Access Statement prepared by LinkUK dated 02/12/2016.

The Council has considered your application and decided to grant consent subject to the following condition(s):

Conditions and Reasons:

- 1 Any advertisement displayed and any site used for the display of advertisements, shall be maintained in a condition that does not impair the visual amenity of the site.

Reason: - As required by regulation 2(1) and Schedule 2 of the Town & Country Planning (Control of Advertisements) (England) Regulations 2007.

- 2 Any structure or hoarding erected or used principally for the purpose of displaying advertisements shall be maintained in a safe condition.

Reason: - As required by regulation 2(1) and Schedule 2 of the Town & Country Planning (Control of Advertisements) (England) Regulations 2007.

- 3 Where an advertisement is required under these Regulations to be removed, the site shall be left in a condition that does not endanger the public or impair visual amenity.

Reason: - As required by regulation 2(1) and Schedule 2 of the Town & Country Planning (Control of Advertisements) (England) Regulations 2007.

- 4 No advertisement is to be displayed without the permission of the owner of the site or any other person with an interest in the site entitled to grant permission.

Reason: - As required by regulation 2(1) and Schedule 2 of the Town & Country Planning (Control of Advertisements) (England) Regulations 2007.

- 5 No advertisement shall be sited or displayed so as to
  - (a) endanger persons using any highway, railway, waterway, dock, harbour or aerodrome (civil or military);
  - (b) obscure, or hinder the ready interpretation of any traffic sign, railway signal or aid to navigation by water or air; or
  - (c) hinder the operation of any device used for the purpose of security or surveillance or for measuring the speed of any vehicle

Reason: - As required by regulation 2(1) and Schedule 2 of the Town & Country Planning (Control of Advertisements) (England) Regulations 2007.

- 6 The advertisement display shall be statically illuminated and the intensity of the illumination of the digital signs shall not exceed 2500 candelas per square metre during the day and 600 candelas per square metre during the hours of darkness in line with the maximum permitted recommended luminance as set out by 'The Institute of Lighting Professional's 'Professional Lighting Guide 05: The Brightness of Illuminated Advertisements' 2015. The levels of luminance on the digital signs should be controlled by light sensors to measure the ambient brightness and dimmers to control the lighting output to within these limits.

REASON: To ensure that the advertisement does not harm the streetscene and does not create a distraction to pedestrian or vehicular traffic and therefore cause a hazard to highway safety. In accordance with the requirements of policies CS5, CS14 and CS17 of the London Borough of Camden Local Development

Framework Core Strategy and policies DP21, DP24, and DP26 of the London Borough of Camden Local Development Framework Development Policies, policies A1, D1, D4 and T1 of the Camden Local Plan Submission Draft 2016 and Transport for London Guidance for Digital Roadside Advertising 2013.

- 7 The digital sign shall not display any moving, or apparently moving, images (including animation, flashing, scrolling three dimensional, intermittent or video elements).

REASON: To ensure that the advertisement does not harm the character and appearance of the streetscene and does not create a distraction to pedestrian or vehicular traffic and therefore cause a hazard to highway safety. In accordance with the requirements of policies CS5, CS14 and CS17 of the London Borough of Camden Local Development Framework Core Strategy and policies DP21, DP24, and DP26 of the London Borough of Camden Local Development Framework Development Policies, policies A1, D1, D4 and T1 of the Camden Local Plan Submission Draft 2016 and Transport for London Guidance for Digital Roadside Advertising 2013.

- 8 The minimum display time for each advertisement shall be 10 seconds.

REASON: To ensure that the advertisement does not harm the streetscene and does not create a distraction to pedestrian or vehicular traffic and therefore cause a hazard to highway safety. In accordance with the requirements of policies CS5, CS14 and CS17 of the London Borough of Camden Local Development Framework Core Strategy and policies DP21, DP24, and DP26 of the London Borough of Camden Local Development Framework Development Policies, policies A1, D1, D4 and T1 of the Camden Local Plan Submission Draft 2016 and Transport for London Guidance for Digital Roadside Advertising 2013.

- 9 The interval between advertisements shall take place over a period no greater than one second; the complete screen shall change with no visual effects (including fading, swiping or other animated transition methods) between displays and the display will include a mechanism to freeze the image in the event of a malfunction.

REASON: To ensure that the advertisement does not harm the streetscene and does not create a distraction to pedestrian or vehicular traffic and therefore cause a hazard to highway safety. In accordance with the requirements of policies CS5, CS14 and CS17 of the London Borough of Camden Local Development Framework Core Strategy and policies DP21, DP24, and DP26 of the London Borough of Camden Local Development Framework Development Policies, policies A1, D1, D4 and T1 of the Camden Local Plan Submission Draft 2016 and Transport for London Guidance for Digital Roadside Advertising 2013.

- 10 No advertisement displayed shall resemble traffic signs, as defined in section 64 of the Road Traffic Regulation Act 1984.

REASON: To ensure that the advertisement does not create a distraction to pedestrian or vehicular traffic and therefore cause a hazard to highway safety. In accordance with the requirements of policies CS5, CS14 and CS17 of the London

Borough of Camden Local Development Framework Core Strategy and policies DP21 and DP26 of the London Borough of Camden Local Development Framework Development Policies, policies A1, D4 and T1 of the Camden Local Plan Submission Draft 2016 and Transport for London Guidance for Digital Roadside Advertising 2013.

- 11 The footway and carriageway on the Transport for London Road Network (TLRN) and Strategic Road Network (SRN) must not be blocked during the installation and maintenance of the advertising panel. Temporary obstruction during the installation must be kept to a minimum and should not encroach on the clear space needed to provide safe passage for pedestrians, or obstruct the flow of traffic.

REASON: To ensure that the advertisement does not create a distraction to pedestrian or vehicular traffic and therefore cause a hazard to highway safety. In accordance with the requirements of policies CS5, CS14 and CS17 of the London Borough of Camden Local Development Framework Core Strategy and policies DP21 and DP26 of the London Borough of Camden Local Development Framework Development Policies, policies A1, D4 and T1 of the Camden Local Plan Submission Draft 2016 and Transport for London Guidance for Digital Roadside Advertising 2013.

- 12 No music or sound shall be emitted from the advertisements.

Reason: To safeguard the amenities of the adjoining premises and the area generally in accordance with the requirements of policies CS5 of the London Borough of Camden Local Development Framework Core Strategy and policy DP26 of the London Borough of Camden Local Development Framework Development Policies and policies and policies A1 and A4 of the emerging Camden Local Plan 2016.

Informative(s):

- 1 Reasons for granting permission:

The proposed digital screen display units are considered acceptable in terms of size, location and method of illumination. Whilst it is accepted that all advertisements are intended to attract attention, the positions of the advertisements would not be considered unduly dominant in the street scene. The impact on the visual amenity of the area subject to conditions would not be considered harmful. To mitigate any impact on the surrounding streetscape, lower levels of illumination and restrictions on the rate and type of change of the display are secured by condition to reduce the visual impact of the display.

Whilst the method of illumination would cause some light spill, the position of the screens on the structure would be an appropriate distance facing away from the nearest neighbouring occupiers which are in commercial use. Lower levels of illumination during the hours of darkness and restrictions on the rate of change of the display are secured by condition attached to this consent. On balance, the proposed screens would not be considered significantly harmful to neighbouring occupiers.

In terms of size, siting and method of illumination the proposal is not considered detrimental to highways safety. The double sided panel would be located at an appropriate distance from road junctions and pedestrian crossings. Whilst there is a large scale digital advert visible across the bridge this is at a higher level the proposed site is adjacent to the bus lane to the right of the one-way road. Given the separation and different positions of the advert this is not considered to be harmful to drivers. However as the advertisement would be seen by drivers in moving traffic this decision includes a condition that restricts the display of moving images. On balance, the locations of the advertisements within the structure are not considered to be hazardous to vehicular or pedestrian traffic and therefore raise no public safety concerns.

No objections have been received prior to making this decision. The site's planning history has been taken into account when coming to this decision.

As such, the proposed development is in general accordance with policies CS5, CS14 and CS17 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP21, DP24, and DP26 of the London Borough of Camden Local Development Framework Development Policies, policies A1, D1, D4 and T1 of the Camden Local Plan Submission Draft 2016. The proposed development also accords with the policies of the London Plan 2016, The National Planning Policy Framework 2012 and Transport for London's Guidance for Digital Roadside Advertising 2013.

- 2 The Inspector's report on the Local Plan was published on 15 May 2017 and concludes that the plan is 'sound' subject to modifications being made to the Plan. While the determination of planning applications should continue to be made in accordance with the existing development plan until formal adoption, substantial weight may now be attached to the relevant policies of the emerging plan as a material consideration following publication of the Inspector's report, subject to any relevant recommended modifications in the Inspector's report.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraphs 186 and 187 of the National Planning Policy Framework.
