PLANNING DEPARTMENT CAMDEN

FROM Eric Harber 91a Belsize Lane NW3 5AU

Dear Sir or Madam,

I confirm that I join the objection lodged by George Everett of the same address, and strongly object to the building of a second storey extension as in the plans submitted intended or wished for by the owners of 89 Belsize lane since the effect of implementation of the proposed plans will both have a negative effect on both flats at 91 Belsize Lane and cause a reduction in the quality of life and a loss of amenity. They will overshadow the living area of the ground floor and basement rooms causing a loss of the light, access to which at that level is vitally important.

Yours truly,

Eric Harber [REDACTED]

Dear Sir or Madam,

I strongly object to the application. The proposed plans would have a very negative effect on our quality of life. They would overshadow and create significant loss of light on two of our main living areas. The plans would overshadow and create loss of light to both our main bedroom and our sitting area/kitchen. The rooms would be made dark by the addition of the second story extension. I note that this seems to be a resubmitted version of the following planning submission from 2012.

2012/1189/P

2012/1335/L

I quote from the associated Officer delegated report -

'Following concerns raised in respect of an additional floor to the existing 3-storey closet wing extension, the

applicant agreed to omit this from the scheme. The application has therefore been revised to remove this element of the proposal and the drawings amended accordingly'.

I therefore thoroughly object to the proposals.

Many thanks George Everett
