

**Ordnance Survey Plan
Published 1953 - 1954**

Source map scale - 1:1,250

The historical maps shown were reproduced from maps predominantly held and applied for England, Wales and Scotland in the years 1953 and 1954. The 1:2,500 scale maps were considered to be the cultivated parts of Great Britain. The published date given below is often some years later than the surveyed date. Before 1938, all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

Map Name(s) and Date(s)

**Additional SIMs
Published 1953 - 1986**

Source map scale - 1:1,250

The SIM cards (Ordnance Survey's Survey of Information on Microfilm) are the most up-to-date maps available. They are based on the main editions as an area was updated. They date from 1947 to 1984, and contain detailed information on buildings, roads and land-use. These maps were produced at both 1:2,500 and 1:1,250 scales.

**Ordnance Survey Plan
Published 1954 - 1955**

Source map scale - 1:2,500
The historical maps shown were reproduced from maps predominantly held in the Ordnance Survey archives. The maps were surveyed in 1954 and 1955 and published in 1954 and 1955. The maps covered the whole of what was considered to be the cultivated parts of Great Britain. The published date given below is often some years later than the surveyed date. Before 1938, all OS maps were based on the Cassini Projection, with independent surveys of a single county or group of counties, giving rise to significant inaccuracies in outlying areas.

Map Name(s) and Date(s)

TO2784	1954	12,500
TO2884	1955	12,500
TO2783	1954	12,500
TO2883	1954	12,500

Supply of Unpublished Survey Information

Published 1973 - 1975

Source map scale - 1:1,250

SUSI maps (Supply of Unpublished Survey Information) were produced between 1972 and 1977, mainly for internal use at Ordnance Survey. These were more of a 'work-in-progress' plan as they showed updates of individual areas on a map. These maps were unpublished, and they do not represent a single moment in time. They were produced at both 1:2,500 and 1:1,250 scales.

Map Name(s) and Date(s)

Geotechnical & Environmental Associates
Large-Scale National Grid Data
Published 1991 - 1994
Source map scale - 1:1,250

Large Scale National Grid Data superseded SIM cards (Ordnance Survey's information on Microdots) in 1992, and digital maps were produced until 1999. Information on houses and roads, but tend to show less topographic features such as vegetation. These maps were produced at both 1:2,500 and 1:1,250 scales.

Geotechnical & Environmental Associates
Large-Scale National Grid Data
Published 1992 - 1995
Source map scale - 1:1,250

Large Scale National Grid Data superseded SIM cards (Ordnance Survey's information on Microdots) in 1992, and digital maps were produced until 1999. These maps were the first versions of digital mapping and so provide detailed information on houses and roads, but tend to show less topographic features such as vegetation. These maps were produced at both 1:2,500 and 1:1,250 scales.
