Dear Mr Marfleet

I write regarding a recent planning alert received from Camden for 2017/1946/P 50 Compayne Gardens NW6 3RY on behalf of CRASH – the local residents association covering South Hampstead Conservation Area. The application appears to have been registered on 11 May 2017 but comments are not being accepted as the comments date is 20 April.

The design and access statement makes no sense as it seems to relate partially to the garden pavilion which isn't in this application and was previously refused under a separate application.

The application seems to relate to wanting a larger extension than the one granted permission (2017/0081/P) but the details in the application make no sense.

Please could you clarify what the application is for and when comments can be submitted until and how best to do this if not possible on the website.

Kind regards

Lucy

Lucy Findlay
