2017/2383/P	mr & mrs Ingham	chetwynd villas	21/05/2017 10:43:50	INT	As far as we can see the changes that have been made do not address the objections raised in relation to the previous application. This being the removal of the mansard roof at the second floor level with the edition of another floor on the third level. we are concerned this will increase light pollution, overshadowing, overlooking and a loss of sky and sunlight into the gardens and properties of Chetwynd Villas.
2017/2383/P	Martin Lewy	40 Swains Lane London N6 6QR	19/05/2017 18:21:11	SUPPRT	I live locally and have enjoyed Grove End House for many years. I've looked through the documents and consider this to be a sensitive scheme that compliments this handsome building. The development works are restrained and well considered; I particularly appreciate the removal of the low quality alterations to the facades and the restoration works proposed.
2017/2383/P	Martin Lewy	40 Swains Lane London N6 6QR	19/05/2017 18:21:27	SUPPRT	I live locally and have enjoyed Grove End House for many years. I've looked through the documents and consider this to be a sensitive scheme that compliments this handsome building. The development works are restrained and well considered; I particularly appreciate the removal of the low quality alterations to the facades and the restoration works proposed.
2017/2383/P	Kate Cullinan	10 Camden Mews	22/05/2017 15:46:10	COMMEM AIL	It is clear that this beautiful grade 2 listed building needs some care and attention and I am so pleased that Kelly and Michael are generously investing their time and money in it. There are so many buildings that aren't so lucky, and fall into disrepair. Their proposals look very sympathetic and will bring the degree of care necessary to future proof the House. The scheme for the roof is thoughtfully designed and picks up on the original proportions of the Georgian facade. We look forward to this scheme being realised.
2017/2383/P	Jeff McMillan & Connie Parker	23 Patshull Road NW5 2JX	22/05/2017 11:19:02	SUPPRT	We have lived in Kentish Town for several years and use Highgate Road every week to go to the Heath and beyond. The design for this addition looks really interesting and contemporary while remaining discreet and respectful of the existing facades. The thing that makes London great and so unique as a European city is its ability to mix styles and reveal an evolving architecture and this looks like a good example of that.
