

Did you know? Having set specification standards for the UK, NBS have now established the same high standards for BIM Objects.

NBS National BIM Library offers a free-to-use resource of NBS standard generic and proprietary BIM Objects in industry-neutral IFC and formats compatible with Autodesk Revit, ArchiCAD, Vectorworks, Tekla and Bentley.

NBS Plus product specifications by NBS

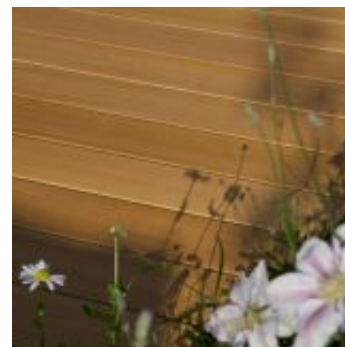

The product information below is from the NBS Plus library of product clauses offered in NBS specification products. It has been created by NBS for Silva Timber. The clause is authored in NBS format and is intended for inclusion in project specifications. The clause can be copied and pasted into your project specification document. **Please note that NBS product guidance is not a replacement for the manufacturer's literature and it is recommended that Silva Timber be consulted before specifying.**

Western Red Cedar Decking

Benefits:

- Produced from coastal grown Western Red Cedar, with tight growth rings and rich colouration.
- Cedardeck exceeds Western Red Cedar Lumber Association grading standards.
- Features warm colours, beautiful grain patterns, limited knots and other natural characteristics that combine to create a stunning overall look.
- A sustainable product with PEFC certification.
- Sourced from one of North America's most reputable primary sawmills to ensure consistent high quality.
- 40 mm thick profile spans 600 mm joist centres, requiring fewer joists and screws, saving installation time and providing a cleaner surface appearance.
