Mr L Lester
Planning and Development
Town Hall
Judd Street WC1H 9JE

Dear Mr Lester

Re: Former 59-61 Leighton Road

In response to your letter of 11 May I do not wish to make any comments about most of the changes applied for. The adoptions to the entrance and small increase in height I will leave to those living closer to the building

However I wish to object to the request not to comply with the original applications design to include a copper sealing. There was also a agreement to add a copper dish to the side wall as a design feature. The Councillor quite correctly agreed the original application on a change of design which has resulted in the more acceptable brickwork on the building. However, it was also agreed that the copper dish would be a distinguishing feature and the application was agree on the understanding this would be a feature for Leighton Road. I would therefore like to object to the removal of this agreed feature. For the benefit of all residents the copper features should remain and not be replaced with the duller zinc.

Yours sincerely
